

Lorna K McCaul BDS FDS RCPS (Glas) MRD RCS (Edin) FDS (Rest Dent)

Lorna McCaul is a Consultant and Honorary Clinical Senior lecturer in Restorative Dentistry at Glasgow Dental Hospital and School. She is a past President of BSSPD and is Head and Neck Cancer Clinical Excellence Network lead for RD-UK. She is the Restorative Dentistry representative on the British Association of Head and Neck Oncologists. Her main interest is oral rehabilitation for Head and Neck Cancer patients. She has worked with Head and Neck Cancer MDTs at Bradford Teaching Hospitals NHS Foundation Trust, The Royal Marsden, Guy's and St Thomas' and Northwick Park Hospitals in London and the Queen Elizabeth University Hospital in Glasgow. She instigated and led the development of the first national oral rehabilitation Guideline for Head and Neck Cancer; 'Predicting and Managing Oral and Dental Complications of Surgical and Non-Surgical Treatment for Head and Neck Cancer.' She has published and presented research both in the UK and abroad. She wrote the Restorative Dentistry chapters in the 5th and 6th editions of the Oxford Handbook of Clinical Dentistry and is actively involved in Postgraduate and Undergraduate teaching and training.

Dr Susan Tanner MRD RCS(Eng) MSc BDS(Lon) FCGDent

Specialist in Prosthodontics, The Dawood and Tanner Specialist Dental Practice,
London, UK susan.tanner@dawoodandtanner.co.uk

Susan's career spans more than 25 years providing implant dentistry for patients of referring colleagues, and patients of Dawood and Tanner, a multidisciplinary specialist practice of which she is a founder. She started out in the hospital system, then while in private practice completed a master's degree in prosthetics, and specialist degree in prosthodontics. This formed the basis of her daily implant practise, and love, of restoration of the atrophic full arch dental implant patient, and implant retained reconstructions for maxillo-facial patients.

Susan champions younger, and particularly female clinicians to take on the challenges of implant dentistry, the most important part of this being mentorship. She enjoys teaching restorative implant courses, lecturing, and has developed a lecture series in communication for undergraduate students called "Talking Dentistry". She is a proud member of the Education Council of the Foundation for Oral Rehabilitation (FOR.org).

Susan finds enormous pleasure in cooking for her large family, reading, travelling, hiking.... and if the pace of life ever quietens, she would love to sculpt and play the piano again!

Janice Ellis

Janice is graduate of Newcastle University gaining BDS with Honours in 1987. She became a Fellow of the Royal College in 1991 and went on to complete a PhD in the subject area of drug induced gingival overgrowth in 1998. Having completed clinical and academic training pathways she is now Professor of Dental Education, and director of Dental education at Newcastle University School of Dental Sciences and Hon Consultant in Restorative Dentistry at Newcastle Dental Hospital.

Her clinical interest is in removable prosthodontics and she provides a specialist service attempting to manage those patients which others have given up on! Academically her research interests focus on clinical educational.

She is an ex- President of the British Society of Prosthodontics, a founder member of the British Alliance of Researchers in Dental Education & Scholarship and Co-Lead of the NIHR Incubator for Clinical Education Research. As the current Chair of Dental Schools Council Education Committee she has been instrumental in developing the Educational Transition Document and has served as an External examiner for a number of BDS and Masters programmes throughout the country.

Outside of work Janice 'enjoys' running, swimming (pool and open water) and yoga

Ade Mosaku

Ade Mosaku is a Consultant in Restorative Dentistry at Glenfield Hospital, University Hospitals of Leicester NHS Trust following her appointment in 2005. She was Head of Service for Orthodontics and Restorative Dentistry from 2010-2019, BDA Chair East Midlands 2016 and Secondary Care Representative at Leicestershire & Rutland Local Dental Committee from 2006 -2018.

She is currently Restorative MCN Chair East Midlands where she has been working collaboratively with colleagues in the region to improve the awareness of the links between oral health and diabetes.

Her main areas of interests are in fixed and removable prosthodontics and the management of patients with head and neck cancer.

She is involved in the teaching and training of Specialty Registrars in Restorative Dentistry and clinical supervision of Specialty Dentists within the Trust.

Ade has a keen interest in the career development of dentists and is actively involved in examining nationally and internationally for the Royal College of Surgeons of Edinburgh where she is a member on MFDS advisory board
